

September 24, 2025: On How the USA Government is Inflating the Worst of Mankind and Yielding Hell on Earth

- SpaceX's biggest Pentagon contracts include the \$733 million National Security Space Launch contract awarded in October to lift satellites into orbit. The company has been tapped for more Pentagon launch contracts potentially worth hundreds of millions of dollars more. Seriously, the USA military has their yangs into some seriously unbecoming members of USA society. Ethics and morality must not be very high on their list of priorities!

Starlink: The satellite-based internet service, which falls under the SpaceX umbrella, has been used by the Pentagon to provide connectivity in remote and austere environments. Starlink's commercial broadband service has some 7,000 satellites in orbit.

(Like attracts Like, Rising Yangs)

- In 2023, the Pentagon awarded SpaceX a contract worth about \$23 million to use Starlink to support military operations in Ukraine through mid-2024.

(General Raising Cane's favorite contractor)

- Starlink has had contracts with Special Operations Command, the Air Force, Army and other parts of the Pentagon.

(USA NATIONAL SECURITY has no better talent than the Musketeers?)

Starshield: Though not broken out in government contracting, this satellite unit of SpaceX is similar to its commercial Starlink business but designed for government national security programs. While details of the program are scarce, it is believed to have more secure communication pathways for classified information. Starshield has a contract with at least one intelligence agency believed to be worth billions of dollars, Reuters has reported.

AND THE ECHO:

I know that I am not the only one sick of seeing these philosophically-stunted, over-inflated, buffoons **grifting our American tax dollars, stirring up strife around the world, and then strutting themselves around as 'heroes' for their own personal pleasures!** ENOUGH ALREADY! USA MILITARY I WANT YOU OUT OF OUR HOME IN SAN ANTONIO, TEXAS! CHECK YOURSELF INTO REHAB AND GET CLEANED UP ALREADY! YOU ARE DISGUSTING!
